

# SteppIR™ Antennas

## Control Cable Connector Option

Upgrade your SteppIR Antenna to the next level. This Control Cable Connector Option allows you to connect your antenna using this easy plug and go connector board. Mounts directly to the antenna mast plate, using a clean fully enclosed protective housing.

- 25 pin D sub remote connector installed for testing
- Solderless removable connectors make running control wire thru conduit a breeze.
- Individual connectors for both main controller cable and Element Housing Unit
- Easy plug connectors make trouble shooting simple
- Eliminates wiring errors
